

Help Stop Nuclear Power In Virginia!

Do You Live 50 Miles from the North Anna Nuclear Plant?

Dominion-Virginia Power has submitted an application to add a third nuclear power plant at its North Anna Nuclear Station in northern Virginia. The Blue Ridge Environmental Defense League is challenging this permit for health and safety reasons. If you are within the 50-mile zone, you may join in this effort. The circle on the map below shows the area within the 50-mile zone.

If you live within 50 miles of North Anna, please sign a **Declaration** and send it to us by May 9, 2008. By signing the **Declaration** you will enable us to represent you in a challenge to the power plant permit. Simply download the blank **Declaration**, fill in your name and address, sign it and have it notarized.

For more information, visit our website at www.BREDL.org to see FAQs, or contact us at (336) 982-2691 or BREDL@skybest.com

Declarations are due by May 9, 2008.
