On the impacts of drilling for natural gas in the mountains

On May 29, 2014 the NC General Assembly approved legislation (H786) allowing oil and gas exploration and drilling in North Carolina. On June 4 the Governor signed it.

**Transylvania County Library
212 South Gaston Street
Brevard, North Carolina 28712**

It's time for the people of western North Carolina to take action, before drilling rigs arrive, before private property is violated, before communities are disrupted, and before the land we love is sacrificed.

SPEAKERS:

Louis Zeller, Blue Ridge Environmental Defense League Executive Director
Therese Vick, BREDL Sustainable Economic Development Coordinator

For the past two years the Blue Ridge Environmental Defense League has been in Raleigh, witnessing the acts of state leaders, studying the effects of fracking, and organizing citizen groups to protect their communities.

“The oil and gas industry has already been meddling with our regulatory and political process. With complicit or at least compliant state leadership, problems in affected communities will be trivialized or downright ignored.”

Therese Vick
